COUNCIL COMMUNICATION

AGENDA TITLE: Conduct Public Hearing to consider the Planning Commission's recommendation that the City Council adopt a General Plan Amendment, and Prezone requested by the Episcopal Church of St. John the Baptist for the property located at 15567 Lower Sacramento Road. The requested General Plan Amendment is to change from PR, Planned Residential to LDR, Low Density Residential. The Prezoning request is from AU-20, Agriculture Urban Reserve to PD, Planned Development No. 34 and to initiate annexation of the property into the City of Lodi

MEETING DATE: October 20, 1999

PREPARED BY: Community Development Director

RECOMMENDED ACTION: That the City Council conduct a Public Hearing to consider the recommendation of the Planning Commission to adopt a General Plan Amendment, Prezoning and initiate annexation of the property as stated above.

BACKGROUND INFORMATION: The Episcopal Church of St. John the Baptist is proposing to locate their new church facility on a 10-acre piece of property located at 15567 Lower Sacramento Road, Assessors Parcel Number 027-050-05. This property is currently in San Joaquin County, located on the west side of Lower Sacramento Road one parcel south of Vine Street. Prior to beginning any work on the new site, St. John's Church has applied for a General Plan Amendment and Prezoning.

On September 22, the Planning Commission held a Public Hearing to consider the request. Subsequent to staff's presentation, there were questions from the Commission about the master plan for the church complex, including the on-site storm drainage basin, and the site's relationship to future surrounding development. Staff went into a little more detail about future development in this area, including street extensions and utilities. Further, staff highlighted the fact that the basin would be constructed with the first phase of development, and that final approval of any plan under the new Planned Development No. 34 would be subject to SPARC review and approval. We received one letter in opposition to this annexation. In addition, an adjacent property owner on the south who actively farms his property also spoke against the proposed conversion of farmland to urban uses. Staff explained that the City does have an ordinance protecting active farming operations in and around the City. Following this discussion period, the Commission approved a recommendation to the Council for a General Plan Land Use Amendment to change from PR, Planned Residential to LDR, Low Density Residential; and for a Prezoning from AU-20 (County zoning), to Planned Development (PD) No. 34. This recommendation also comes with a request to initiate annexation of the property into the City of Lodi.

APPROVED: _____

H. Dixon Flynn
H. Dixon Flynn -- City Manager

The master plan for the new site includes relocating the existing church from 310 West Locust Street to the new site, building a new 8,500 square-foot church building and 14,000 square-foot fellowship hall, adding 26 units of senior housing, constructing a preschool through sixth grade school, and adding structures for administration and music. Finally, the site will include all required infrastructure such as landscaping, parking and driveways, and will also feature an on-site storm water detention basin/play field. According to church representatives, all future church operations will be relocated to the new Lower Sacramento Road site, and the West Locust Street properties will be sold.

The General Plan Amendment, Rezoning, and initiation of the annexation are the first steps necessary to develop this property, if it is to be done within the City of Lodi. In all likelihood, San Joaquin County and the Local Area Formation Commission (LAFCO) would be opposed to allowing urbanization to occur so close to the incorporated boundary, yet still be in the county. The area is included in the City's General Plan sphere of influence, meaning the City has expectations about development at this location. We have anticipated growth and expansion of City boundaries here, and are prepared to accommodate this property from a City services standpoint, so it makes sense to all parties involved that prior to any development, the property be brought under the auspices of the City.

If and when the requested actions are approved by the City Council and the Local Area Formation Commission (LAFCO), Phase I of the project, including work involving the old church, the new worship center, the basin, and related infrastructure and parking improvements, will still be subject to Site Plan and Architectural Review Committee (SPARC) approval prior to breaking any ground. Future phases of the project will require additional Use Permit and SPARC approvals. Staff sees no objection to annexing this property to the City and changing the land use designations to permit development of the type that will be proposed under Planned Development No. 34.

MEMORANDUM, City of Lodi, Community Development Department

To: Planning Commission
From: Community Development Department
Date: September 22, 1999
Subject: Request of the Episcopal Church of St. John the Baptist for 1) a General Plan Amendment to change from PR, Planned Residential to LDR, Low Density Residential; and 2) a Rezoning from AU-20, Agriculture Urban Reserve to PD, Planned Development No. 34, for the property located at 15567 Lower Sacramento Road, APN 027-050-05.

SUMMARY

The Episcopal Church of St. John the Baptist is proposing to locate their new church facility on a 10-acre piece of property located at 15567 Lower Sacramento Road, Assessors Parcel Number 027-050-05. This property is in San Joaquin County, located on the west side of Lower Sacramento Road one property south of Vine Street. The church currently operates from 310 and 314 West Locust Street in Lodi. Prior to beginning any work on the new site, St. John's Church has applied for annexation to the City of Lodi. Also being applied for at this time are 1) a General Plan Land Use Amendment to change from PR, Planned Residential to LDR, Low Density Residential; and 2) a Rezoning from AU-20 (County zoning) to Planned Development (PD) No. 34.

The church's plans for the new site include relocating the existing church to the new site, building a new 8,500 square-foot church building and 14,000 square-foot fellowship hall, adding 26 units of senior housing, constructing a preschool through sixth grade school, and adding structures for administration and music. Finally, the site will include all required infrastructure such as landscaping, parking and driveways, and will also feature an on-site storm water detention basin/play field. According to church representatives, all future church operations will be relocated to the new Lower Sacramento Road site, and the West Locust Street properties will be sold.

BACKGROUND

The Episcopal Church of St. John the Baptist is currently located at 310 and 314 West Locust Street, Lodi. They have been in continuous operation at this location since approximately 1910.

ANALYSIS

The Annexation, General Plan Amendment, and Rezoning prior are the first steps necessary to develop this property, if it is to be done within the City of Lodi. In all likelihood, the County of San Joaquin, the City, and the Local Area Formation Commission (LAFCO) would be opposed to allowing urbanization to occur so close to the incorporated boundary, yet still be in the county. The area is included in the City's sphere of influence and the General Plan, meaning the City has expectations about development at this location. We have anticipated growth and expansion of City boundaries here, and are prepared to accommodate this property from a City services standpoint, so it makes sense to all parties involved that prior to any development, the property be brought under the auspices of the City.

However, the church will still be subject to several additional approvals, prior to breaking any ground. If and when the requested actions are approved by the Planning Commission, the City Council, and the Local Area Formation Commission (LAFCO), St. John's Episcopal Church will still be subject to Use Permit and Site Plan and Architectural Review Committee (SPARC) approvals. Staff sees no objection to annexing this property to the City and changing the land use designations to permit development of the type that will be proposed under Planned Development No. 34.

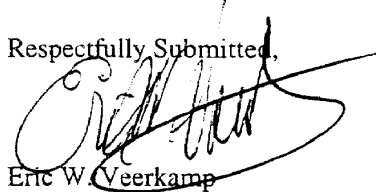

RECOMMENDATION

Staff recommends that the Planning Commission recommend approval to the City Council for adoption of the request of the Episcopal Church of St. John the Baptist for 1) a General Plan Amendment to change from PR, Planned Residential to LDR, Low Density Residential; and 2) a Rezoning from AU-20, Agriculture Urban Reserve to PD, Planned Development No. 34, for the property located at 15567 Lower Sacramento Road, APN 027-050-05, subject to the conditions on the attached Resolutions.

ALTERNATIVE PLANNING COMMISSION ACTIONS

- Approve the Requests with Alternate Conditions
- Deny the Requests
- Continue the Requests

Dear Sirs,

One of the most attractive features about the City of Lodi is it's small town atmosphere. Lodi is a safe place to raise a family, as well as, a wonderful retirement community. I believe that Lodi is the way life should be; however, the issues that the Planning Commission decide upon can greatly influence the longevity of the term "livable, lovable, Lodi."

As a life time resident of Lodi, I implore each member of the Lodi Planning Commission to take into consideration the long term impact of the decisions you make today. Please **DO NOT** rezone **ANY** farmland to commercial, industrial, or residential. It is imperative that the citizens of Lodi create a solid greenbelt between our community and surrounding areas, and those plans start with you.

For the future of our children today and tomorrow, please consider my request..

Sincerely,

Jo Anne Mounce
